We stand on the quality of our flooring and we think you should too! At **Preferred Commercial Floor Covering** we are committed to providing our clients with the highest quality of customer care, flooring and installation services.

We have enjoyed explosive growth in the 8 years that we have been incorporated and we attribute that success to our focus on the needs of our clients. If you are confused or have a question, our knowledgeable staff is happy to help and we keep a fleet of trucks on hand to quickly respond to your call. The president of Preferred Commercial Floor Covering has remained involved with the day to day operations of the company. He oversees the various projects five days a week to ensure that his standards for quality are being upheld.

Over time the company has earned a reputation in the commercial market for experience and expertise. Our specialty is new retail construction but we also handle remodeling jobs for established businesses. Some of the services we offer are the installation of:

- Carpet
- VCT
- Base
- Stripwood
- Reducers

If you are in need of service, or do not see it listed above, please call us for details. Our office is open Monday through Friday from 7:00 a.m. to 5:00 p.m.

About Us Page

Mission Statement

"Preferred Commercial Floor Covering is dedicated to providing their clients with expert flooring services and quality customer care."

Company History

Preferred Commercial Floor Covering opened in 1996, and was incorporated in 2000. Our president, Bob Bitz decided to take his expertise and branch out on his own. He has taken the company from his garage to being the multi-million dollar corporation that it is today.

In that time we have changed the location of our headquarters four times because we keep running out of space for everyone. Since our fleet of work trucks and our warehouse is constantly expanding, we are sure it will not stop there.

We have a very wide coverage area and have provided our services all over the United States. However, since we are located in North Georgia, we find that most of our work is concentrated in the Southeast.
